

As the season has officially taken the turn to Summer, July is when we begin to see a huge increase in specialty produce coming from our farm in Daresbury.

The polytunnels at Field 28 are brimming with heritage cucumbers and squashes - crystal lemons, mouse melons, sikkim, tenerumi, courgette flowers and trombetta squash that will soon form a sprawling green canopy as the month continues. The brassica beds are producing a bounty of cavalo nero, Tokyo turnips, bunched radishes and baby beets. Beyond the leafy greens lie rows of young French peas and outdoor herbs - parsley, marigold, nasturtiums, dill and shiso.

## LUNCH MENU
